保險課程 Insurance Course

課程簡介 Course Introduction

保險中介人素質保證計劃於二零零二年在澳門實施，旨在提升保險中介人的專業水平。準保險中介人必須符合多項規定，其中一項是通過「保險中介人資格考試」，方可獲得保險中介人牌照。

為幫助本澳有意投身保險中介業務的人士通過「保險中介人資格考試」，以及提供本澳保險從業員系統地學習保險知識的機會，本會特此舉辦一系列的保險課程。課程內容涵蓋保險原理、一般保險、人壽保險以及投資相連長期保險的基本知識及相關法例。

The Insurance Intermediaries Quality Assurance Scheme was implemented in Macao in 2002 to uphold professional standard of insurance intermediaries. One of the requirements for a prospective insurance intermediary to get an insurance intermediary's license is to pass the Insurance Intermediaries Qualifying Examination (IIQE).

This series of insurance courses are designed to help those intending to jumpstart their career in the insurance intermediary's business to pass the IIQE, and also to provide opportunities for insurance practitioners to acquire essential insurance knowledge systematically. The course contents consist of the basic knowledge and relevant laws regarding principles of insurance, non-life insurance, life insurance and investment-linked long term insurance.
